Caring Counsel - Successful Results

If you have been injured on the job, in a car accident or are injured due to the negligence of another, you have just taken the first step in resolving your legal difficulties!

COMPASSIONATE SERVICE

Physical injuries, medical decisions, mounting unpaid bills, concerns about finances and the future all combine to make this time in your life very difficult. I want to help you by using my experience to solve your problems. Our firm is focused on compassionate service to our clients. As a small firm, I am able to give my clients the attention and focus they need and deserve.

PROVEN EXPERIENCE

After many years of representing injured clients, I completely understand the difficulties you or your loved one may face because of someone else's carelessness or due to a company's negligence. At Linda Bass Law, you are much more than just a name on a file—we genuinely care about your pain and your struggles.

There are several techniques used by employers, insurance companies and individuals to avoid or delay compensating you for your injuries. Linda Bass Law will fight to ensure you are not further victimized in any way.

My office is centrally located in downtown Atlanta and is easily accessible by Marta train, Marta bus, or by car. Paid parking is available on every side of our building. I understand that you may not be able to travel due to your injuries, and I often visit with clients, no matter their location in the state.

We'll come to your house for FREE !!
